Understanding the whole organisations its needs and objectives	The annual audit plan demonstrates how audit work will provide assurance in relation to the body's annual governance statement.

Be forward looking	When identifying risks and in formulating the annual audit plan, changes on national agenda are considered. Internal audit maintains awareness of new developments in the services, risk management and corporate governance.	
Be challenging	Internal audit focuses on risks and encourages members to develop their own responses to risks, rather than relying solely on audit recommendations. The aim of this is to encourage greater ownership of the control environment.	
Ensure the right resources are available.	Adequate resource is made available for internal audit to complete its work. Internal auditor understands the body and the legal and corporate framework in which it operates.
