

Advance notice of Northamptonshire Highways planned works around Barby and Kilsby in early 2021.

You will be aware that concrete blocks were installed in Spring 2020 at the M45 overbridges along Onley Lane, Barby-Hillmorton Lane and Nortoft Lane, and we recently had short duration closures to clear back vegetation and dig trial holes. The current safety fence provision consists of a timber fence and is insufficient to prevent vehicles from accidentally leaving the carriageway and potentially reaching the M45 below.

Northamptonshire Highways are installing new safety barrier to the four corners of all three bridges under 24/7 road closures. There will be signed diversion routes in place while the roads are closed, along with signs advising motorists that access to businesses remain open. Nearer the time residences immediately affected by the closure will also receive a letter informing them of the works.

The dates of the works are:

Onley Lane	25 th January to 12 th February 2021
Barby-Hillmorton Lane	15 th February 2021 to 5 th March 2021
Nortoft Lane	8 th March 2021 to 26 th March 2021
