

# Barby Primary School's Neighbourhood Planning Survey

Oaks (Years 5 and 6) held their own Neighbourhood Planning Survey. They discussed what they liked and didn't like about Barby village and suggested ways to make it a better place to live.

They considered the proposed development opposite the school and debated whether it would be a good thing or not and what the effect might be on the village.

This was followed up by a questionnaire on the school website.

These are selected responses that capture the best and most popular of the children's submissions.

(The children's names have been removed to preserve the anonymity of the Neighbourhood Planning Survey.)
